“Over a million people in the UK are affected by Acquired Brain Injuries (ABI) and every 90 seconds someone is admitted to hospital with an ABI, either through the sustaining of a traumatic injury or through illness-related medical conditions.

It is estimated that the cost to the economy is around £15bn a year, yet the research and support available is inadequate. Early access to specialist rehabilitation is vital, as those suffering from ABIs are less likely to return to work and play an active role in society, consequently impacting on the emotional and physical well-being of both themselves and their carers.

Children from lower socioeconomic backgrounds are also considerably more likely to sustain an ABI before the age of 5, many of which go undiagnosed for their lives and have a considerable impact on their quality of life thereafter.

At present, there are no major trauma centres in Wales, and patients have to be transferred to the nearest facility in England, where there are often no specialist rehabilitation consultants.

This Council therefore resolves to:

- Support the Brain Injury Charity, Headway, and support their future campaigns to raise awareness of the hugely damaging effects of ABIs.
- Request that the Leader of the Council writes to both the Welsh Government’s Cabinet Secretary for Health and the Chief Executive of the Cwm Taf UHB to request that a major trauma centre be established in the South Wales region.”

14. URGENT BUSINESS

To consider any items which the Mayor, by reason of special circumstances, is of the opinion should be considered as a matter of urgency.
