MUNICIPAL YEAR 2018-2019

COMMUNITY COUNCIL LIAISON COMMITTEE

4TH FEBRUARY 2019

COMMUNITY INFRASTRUCTURE LEVY ('CIL') – CIL 123 LIST

REPORT OF THE DIRECTOR OF REGENERATION, PLANNING AND HOUSING

1.0 PURPOSE OF THE REPORT

- 1.1 The report provides an update for Community and Town Councils in respect of the process involved in collecting and spending Community Infrastructure Levy (CIL) monies including the preparation of Infrastructure Lists

2.0 RECOMMENDATION

- 2.1 That Community/Town Councils consider the advice in the report and in particular the preparation of an 'Infrastructure (Regulation 123)' type List.

3.0 BACKGROUND

- 3.1 The Community Infrastructure Levy Regulations require charging authorities (the Council) to pass a proportion (15%) of CIL receipts to relevant community and town councils arising from developments in their areas.
- 3.2 CIL receipts are passed twice a year by 28 April (for CIL receipts received between 1 October and 31 March) and by 28 October (for CIL receipts received between 1 April and 30 September).

4.0 CIL RECEIPTS PASSED TO COMMUNITY/TOWN COUNCILS

- 4.1 Total receipts passed to Community/Town Councils (October 2018) are £90,033.02
- Taffs Well and Nantgarw £9,835.18
 - Pontypridd £45,557.88
 - Llantrisant £3,623.15
 - Tonyrefail £4,873.31
 - Hirwaun £9,190.30
 - Llanharan £3,104.14

- Llanharry £786.67
- Llantwit Fardre £10,844.03
- Other (areas with no Community Council) £2,218.36

4.2 Community Councils where no CIL income has been received to date are Pontyclun, Ynysybwl and Coed-Y-Cwm, Rhigos and Gilfach Goch.

5.0 HOW CAN THE FUNDS RECEIVED BY COMMUNITY/TOWN COUNCILS BE SPENT?

5.1 The CIL Regulations state that the proportion of funds passed to a community/town council must be used to support the development of the local area by funding:

- (a) *the provision, improvement, replacement, operation or maintenance of infrastructure; or*
- (b) *anything else that is concerned with addressing the demands that development places on an area.*

5.2 This is a wider definition of what the County Borough Council can use CIL funds for (which is restricted to infrastructure to support the development of the area). These wider spending powers allow the local community to decide what they need to help mitigate the impacts of development.

5.3 Community/Town Councils should carefully consider whether the expenditure of CIL receipts address the extra demand on infrastructure that are caused by development within their area and be clear on the links between infrastructure and growth. CIL should not be used as a replacement for everyday Community/Town Council expenditure and misspent CIL can be claimed back by the County Borough Council.

6.0 COMMUNITY AND TOWN COUNCIL VERSION OF A REGULATION 123 (INFRASTRUCTURE) LIST

6.1 RCT Council identifies the infrastructure on which it intends to spend its CIL receipts through what is known as a Regulation 123 List (Appendix 1). This list is published on the Council's web-site and is reviewed annually. Any change/s to the list has to be agreed by Cabinet and is subject to a consultation process.

6.2 The production of a Community/Town Council's own version of an Infrastructure (Regulation 123) List can be a useful starting point for the prioritisation of infrastructure projects and the demands that development places on its area.

6.3 Community and Town Council Infrastructure Lists although not mandatory provide an open and transparent way of setting out the projects that the Community/Town Council propose to spend their CIL receipts on. The list can be amended/added to at any time in line with the Community/Town Council's

own procedures for updating/amending the list, such as, consultation with existing groups and local residents within the area.

- 6.4 Examples of Community/Town Council's that have prepared an Infrastructure List are Llanharan, Llantwit Fardre and Llantrisant (Appendix 2).

7.0 CONCLUSION

- 7.1 It is recommended that Community and Town Councils, in the interest of transparency and fairness prepare their own Infrastructure List to help mitigate the impacts of development in their area.

Introduction & Background

Residential Care Homes

RHONDDA CYNON TAF

RCTCBC has agreed to a 12 week consultation on Residential Care Services.

My House

As people are now living longer and their needs are changing RCT County Borough Council are having to make changes to adult social care to meet peoples current and future needs.

Plan

RCT County Borough Council developed a strategy to modernise accommodation options for older people and deliver extra care housing to:-

Increase the options available for people needing accommodation with care and support.

Deliver an alternative for those who are able to continue to live independently but with support!

Since September 2017 RCT County Borough Council has agreed a plan to fund extra care beds across the county which will cost about £50,000,000 to meet the needs of older people

RCT County Borough Council will provide high quality modern homes and use assistive technology and telecare options for people to remain as independent as possible.

RCT County Borough Council will also continue to provide residential care for those who need it.

Where are we now?

RCT County Borough Council provides 322 beds within 11 care homes. These homes are over 30-40 years old.

Proposed New Service Model

To provide choice -
Giving people the option to live in
a Local Authority Residential
Care Home.

To protect against the failure of
independent care providers.

To maintain quality of care

To provide specialist integrated provision - flexible services with Health and residential care homes

Other options.

Continue with what is already there and do nothing.

RCT County Borough Council to close existing Council run homes.

Questions

Why now?

The Council has a duty to look at what they have now and think about what people want and need now and in the future and they need to be able meet peoples changing needs and support.

What is Extra Care?

This offers people the choice to maintain their independence in their own homes for longer with flexible care and support that meets their changing needs.

What the Council wants to do?

the Council wants to offer more choice and has agreed a plan to spend about £50,000.000 to provide Extra Care Facilities for many more older people

Who is suitable for Extra Care?

The Council will provide an assessment and review for each person currently receiving residential services and for people needing residential services!

Extra Care can meet many peoples needs but this option will only be provided if it is suitable for that person.

What will happen to those people that are not suitable for Extra Care?

They will be offered other accommodation options that can meet their care and support needs!

What Happens Next?

People who are currently using residential services and their Carers are being asked what they think before the Council make any decisions

Please tell us what you think by completing the questionnaire and sending it back by **8th April 2019**
