COMMITTEE SUMMONS

C Hanagan
Service Director of Democratic Services & Communication
Rhondda Cynon Taf County Borough Council
The Pavilions
Cambrian Park
Clydach Vale CF40 2XX

Meeting Contact: Ms J Nicholls - Principal Democratic Services Officer (01443 424098)

YOU ARE SUMMONED to a meeting of **PUBLIC SERVICE DELIVERY, COMMUNITIES AND PROSPERITY SCRUTINY COMMITTEE** to be held at the **Council Chamber, The Pavilions, Cambrian Park, Clydach Park, Tonypany, CF40 2XX** on **THURSDAY, 16TH JANUARY, 2020** at **5.00 PM**.

Non Committee Members and Members of the public may request the facility to address the Committee at their meetings on the business listed although facilitation of this request is at the discretion of the Chair. It is kindly asked that such notification is made to Democratic Services by Tuesday, 14 January 2020 on the contact details listed above, including stipulating whether the address will be in Welsh or English.

AGENDA

**Page
No's**

1. DECLARATION OF INTEREST

To receive disclosures of personal interest from Members in accordance with the Code of Conduct

Note:

1. Members are requested to identify the item number and subject matter that their interest relates to and signify the nature of the personal interest: and
2. Where Members withdraw from a meeting as a consequence of the disclosure of a prejudicial interest they must notify the Chairman when they leave.

2. MINUTES

To receive the minutes of the previous meeting of the Public Service Delivery, Communities and Prosperity Community Committee held on 14th November

2019.

5 - 8

REPORTS OF THE SERVICE DIRECTOR DEMOCRATIC SERVICES & COMMUNICATIONS

3. SCRUTINY FEEDBACK (CABINET RESPONSE) - COMMUNAL WASTE RECOMMENDATIONS

To receive the Cabinet response to the recommendations formulated by the Scrutiny Working Group established to consider communal waste.

9 - 16

4. INFORMATION REPORTS

The following reports are provided for the information of Members:

[Information Report](#)

(For Members to acknowledge the information contained within this/these report(s) but any queries relating to the item can be directed to Scrutiny@rctcbc.gov.uk)

5. CONSULTATION LINKS

Information is provided in respect of relevant [consultations](#) for consideration by the Committee.

OFFICER REPORTS

6. RHONDDA CYNON TAF'S OPEN SPACES - PARKS, PLAY AREAS AND PITCHES

To receive a report from the Director, Public Health Protection and Community Services in respect of the Council's Parks, Play areas and Pitches.

17 - 42

7. URGENT BUSINESS

To consider any items, which the Chairman, by reason of special circumstances, is of the opinion should be considered at the meeting as a matter of urgency.

Service Director of Democratic Services & Communication

Circulation:-

The Chair and Vice-Chair of the Public Service Delivery, Communities and Prosperity Scrutiny Committee
(County Borough Councillor S Bradwick and County Borough Councillor T Williams respectively)

County Borough Councillors:

Councillor M Weaver, Councillor G Stacey, Councillor A Chapman,
Councillor D Owen-Jones, Councillor W Treeby, Councillor D Grehan,
Councillor E George, Councillor G Hughes, Councillor W Owen,
Councillor S Pickering, Councillor M Diamond and Councillor A Fox

RHONDDA CYNON TAF COUNCIL

Minutes of the meeting of the Public Service Delivery, Communities and Prosperity Scrutiny Committee meeting held on Thursday, 14 November 2019 at 5.00 pm at the Committee Room 1, The Pavilions, Cambrian Park, Clydach Park, Tonypany, CF40 2XX.

County Borough Councillors - Public Service Delivery, Communities and Prosperity Scrutiny Committee Members in attendance:-

Councillor S Bradwick (Chair)

Councillor T Williams	Councillor M Weaver
Councillor D Owen-Jones	Councillor W Treeby
Councillor E George	Councillor G Hughes
Councillor S Pickering	Councillor M Diamond

Officers in attendance

Mr N Wheeler, Group Director – Prosperity, Development & Frontline Services
Mr S Humphreys, Head of Legal Services
Mr R Waters, Service Director, Frontline Services
Mr A Griffiths, Service Director, Highways & Transportation
Ms J Nicholls, Democratic Services Officer

57 Apologies

An apology of absence was received from County Borough Councillors A. Chapman, A. S. Fox, D. Grehan, W. Owen and G. Stacey.

58 Declaration of Interest

In accordance with the Council's Code of Conduct, there were no declarations made pertaining to the agenda.

59 Minutes

It was **RESOLVED** to approve the Minutes of the meeting held on the 14th November 2019 as an accurate reflection of the meeting.

60 Scrutiny Work Programme 2019-20

The Principal Scrutiny Officer presented the Public Service Delivery, Communities & Prosperity Scrutiny Committee forward work programme from January 2020 until March 2020 and asked Committee to review and agree the items included. Members were also asked to consider whether they wished to add any further items to the work programme as well as identify any training requirements.

In addition to the scheduled items on the forward work programme, committee was reminded that an element of flexibility should be considered to

accommodate any future pre scrutiny opportunities. The Principal Scrutiny Officer advised that the council continues to progress public engagement within its scrutiny process and therefore improvements to the Council's social media continue to be made so that residents can engage with future items for scrutiny to explore and review.

Following consideration of the Scrutiny forward work programme between January 2020 and March 2020, Committee **RESOLVED** to agree the items subject to including more detailed reference to the Council's drainage repair works across the county borough.

61 Consultation Links

Committee considered the relevant consultation links for the period and **RESOLVED** to acknowledge those consultations which fall within the remit of the Committee.

62 Recycling update

The Group Director, Prosperity, Development and Frontline Services presented his report which provided committee with an update on the Council's recycling performance for the first six months of the municipal year 2019/20. The Public Service Delivery, Communities & Prosperity Scrutiny Committee, whilst monitoring the Council's recycling targets reviewed the figures to assess whether the Council is on course to achieve the targets set out by Welsh Government.

Committee was reminded that the recycling target for the municipal year 2019/20 set by Welsh Government is 64%, failure to meet this statutory target will result in a fine of £200 for every ton the Council fails to achieve. Committee was advised that potentially the fine could be a substantial one.

The Group Director stated that the Council has consistently achieved its recycling targets, although a drop in performance last year was attributed to a number of factors such as a change in the way recycled wood is measured and a drop in the green waste collected at the kerbside due to the weather.

Committee was referred to a table within the report which set out the Council's recycling performance for the first six months of the municipal year. The figures demonstrate that the total figure of 68.92% exceeds the recycling target set out by Welsh Government and represent some of the highest figures ever achieved by the Local Authority.

The Group Director advised that the next recycling target for the Council to achieve is the 2024/2025 target of 70% which based on current performance will be achievable particularly with the introduction of the new Materials Recovery Facility (MRF) at Bryn Pica. It is hoped the potential of the new facility will further improve the recycling figures.

In conclusion Committee acknowledged the figures for the first six months of the municipal year and the potential to maintain and further to surpass these figures with the new MRF facility in Bryn Pica. Members welcomed the process of issuing a letter to residents to alert them to the fact that textiles have been identified in their recycling bags and redirecting them to the recycling textile

banks which offer the best method of recycling textiles.

Following discussion it was **RESLOVED** to acknowledge the progress of the Municipal recycling rates and to receive a further update in the New Year following the Christmas recycling period.

63 Highways, Transportation and Strategic Projects

The Service Director Highways and Transportation presented the report of the Group Director, Prosperity, Development and Frontline Services in respect of progress made in delivering the Highways, Transportation and Strategic Projects Capital Programme.

In delivering the update, the Service Director reminded Committee of the Council's commitment to additional spending each year from 2011/12 on highways infrastructure in conjunction with funding from Welsh Government. Furthermore the Council's responsibility towards improving the highway network and associated infrastructure is demonstrated each year through the Cabinet's approval of the Capital Programme and subsequent Supplementary Highways Programme. Members were advised that the benefits of eight years of investment in its highway network can now be realised through cost -effective preventative maintenance which is carried out requiring less expensive reactive treatments.

Evidence of the investments in the Council's highways network were demonstrated within the report and accompanying Power Point presentation which highlighted the investment plan priorities such as carriageways, footways, car parks, structures, street lighting, safety barriers, town centres, drainage and transport infrastructure. Other areas such as the Making Better Use Programme (MBU) and Active Travel were also referred to with funding having been obtained from Welsh Government's Active Travel Fund for three schemes across the County Borough which will seek to improve walking, cycling and public transport facilities. The Service Director advised of the financial implications and work packages associated with the strategic projects and highways schemes and of the external funding opportunities available to the Council for areas such as the previously mentioned active travel and highways infrastructure.

The Service Director Frontline Services outlined the opportunities for collaboration with other local authorities and City Deal to develop the provision of infrastructure for electric vehicles and widen the access to charging for all. He advised of the benefits arising from a wider partnership approach to the development of the EV infrastructure in RCT through the Commercial sector and Energy Companies. The Service Director referenced a number of new developments across the County Borough which RCT council is progressing such as the Porth Transport Interchange and a number of projects whereby RCT is able to influence development and design of a transportation network which is able to meet travel demand.

Members commended the progress of the Council's Highways, Transportation and Strategic Projects Capital Programme and discussed in further detail some items reported such as the electricity savings realised following the conversion of all the remaining street lighting lanterns to LED and the reduction in the Council's carbon footprint by over 2,750 tonnes annually.

In conclusion and in response to a query about future projects and challenges facing the service, committee was appraised of the future projects to be undertaken by the Council such as the ongoing resurfacing programme with continued assessments to determine those areas in greatest need of repair and management of traffic calming projects.

RESOLVED to:-

1. Acknowledge the good progress made in delivering the capital programme; and
2. To invite Natural Resources Wales to a future meeting.

64 Chair's Review & Close

The Chair reflected on the Meeting and thanked Officers for delivering their respective reports and acknowledged the actions and recommendations to be taken forward. The Chair reminded Committee that the next meeting of the Public Service Delivery, Communities & Prosperity Scrutiny Committee would take place on 16th January 2020 at 5pm when Members would receive a report on Rhondda Cynon Taf's open spaces – Parks, Play areas & Pitches.

This meeting closed at 5.45 pm

**Cllr S Bradwick
Chairman**

RHONDDA CYNON TAF COUNTY BOROUGH COUNCIL

PUBLIC SERVICE DELIVERY, COMMUNITIES AND PROSPERITY SCRUTINY COMMITTEE

RECYCLING IN COMMUNAL AREAS; WORKING GROUP

REPORT OF THE DIRECTOR OF COMMUNICATIONS & DEMOCRATIC SERVICES.

Author: - Sarah Handy (Graduate Scrutiny Officer) 01443 424099

1. PURPOSE OF THE REPORT

1.1 The purpose of this report is to provide Members of the Public Service Delivery, Communities & Prosperity Scrutiny Committee with the response of the Cabinet Member for Environment, Leisure & Heritage Services following the recommendations of the Scrutiny Working Group, which was established to deal with 'Recycling in Communal Areas'

2. RECOMMENDATIONS

2:1 It is recommended that Members acknowledge the Cabinet Member response following the recommendations of the 'Recycling in Communal Areas' Working Group, as set out at Appendix A.

3. BACKGROUND

3.1 At the meeting of the Public Service Delivery, Communities & Prosperity Scrutiny Committee held on the 27th of September 2018, Scrutiny received a [presentation](#) in respect of Communal Area Recycling from the Group Director- Prosperity, Development & Frontline Services, who outlined the barriers facing the service area, particularly when collecting from bin collection points (BCP's) across the County Borough.

3.2 The Public Service Delivery, Communities & Prosperity Scrutiny Committee **resolved** to set up a Working Group, tasked with improving communal area recycling across RCT.

3.3 The Working Group Members comprised of County Borough Councillors S. Bradwick (Chair), T. Williams (Vice Chair), D. Owen-Jones, G. Hughes, M. Weaver, W. Owen, W. Treeby, S. Pickering, G. Stacey and D. Grehan.

3.4 At its inaugural meeting on the 15th November 2018, the Scrutiny Working Group looked to establish two sub groups to oversee two specific programmes of work:-

- Recycling and the role of Social Landlords; and
- Recycling Enforcement issues

3.5 At that meeting, nominations were also sought for each sub group. It was agreed that a nominated chair, with the support of a lead officer, would organise the sub group's activities.

4. FINAL REPORT OF THE SCRUTINY WORKING GROUP

4.1 The [final report](#) of the Scrutiny Working Group was submitted to the Cabinet on the 17th of October 2019.

4.2 The Cabinet **resolved** to approve the recommendations, subject to further deliberations in relation to recommendation xvi ([minute 63 refers](#))

5. CONCLUSION

5.1 The review of the issues surrounding 'Recycling in Communal Areas' culminated in 16 recommendations from the Scrutiny Working Group.

5.2 The Cabinet subsequently agreed the recommendations, subject to further deliberations in relation to recommendation xvi.

5.3 It is hoped that this robust and comprehensive piece of work will improve communal area recycling in the County Borough for future generations.

6. EQUALITY AND DIVERSITY IMPLICATIONS

6.1 Equality and diversity implications will be considered as part of any subsequent implementation arrangements.

7. CONSUTLATION

7.1 A consultation was undertaken in partnership with Newydd Housing Association.

8. FINANCIAL AND RESOURCE IMPLICATIONS

8.1 Financial and resource implications will be considered as part any subsequent implementation arrangements

9. LINKS TO THE COUNCILS CORPORATE PLAN AND FUTURE GENERATIONS – SUSTAINABLE DEVELOPMENT

9.1 The proposals in this report are consistent with the priorities of the Council's Corporate Plan, in particular "Place – creating neighbourhoods where people are proud to live and work".

9.2 The outputs of the Strategy will also assist the Council contribute to the Wellbeing goals that 'The Wellbeing of Future Generations (Wales) Act 2015' has put in place:-

- A prosperous Wales
- A resilient Wales
- A Wales of cohesive communities
- A globally responsible Wales.

Item – Recycling in Communal Areas: Cabinet Response
Freestanding Matter

Contact Officer: - Sarah Handy (Graduate Scrutiny Research Officer) The Pavilions,
Cambrian Park, Clydach Vale, CF40 2XX, Tel. No. (01443) 424099.

Appendix A

Dear Councillor Bradwick,

Introduction

Thank you for your report of the Public Service Delivery, Communities & Prosperity Scrutiny Committee and the work undertaken by the working group in advising on the Council wide problem of excessive waste and contaminated recycling at communal bin collection points.

As a responsible Cabinet Member, I welcome the proposals that you, as a Committee have put forward and agree that in order for the Council to meet 2024/2025 recycling targets, proactive and creative recommendations are needed. It was most interesting to see just how important it is for the Council to consult with all stakeholders and how productive and efficient good team working is. This work has also demonstrated that building strong links with stakeholders is needed to remain sustainable particularly in times of austerity and changing external pressures.

It is pleasing to note that the Council have already implemented some of the recommendations with others being developed. I note from officers that the Council will be one of the first in the country to use technology to tackle such problems. The outcomes will result in a faster and more efficient service for all including customer services and of course, our residents.

Planning

The working group at its infancy identified a communication flaw between Planning and Waste on collection problems on new housing estates and developments. This has been quickly rectified with a simple procedure that allows Waste to comment on how communal bin collection points can be avoided or how they can be best designed (including signage and bin sizes) to allow for efficient collection and enforcement. Whilst this does not assist with current sites, it will certainly 'pave the way forward' for the future.

Technology

Waste are currently working with a company called WEBASPX in using technology to develop more efficient ways of reporting and communicating with stakeholders. Waste will soon be using these systems to implement a number of the recommendations as follows:

- To map out the properties assigned to a communal point so that communications and enforcement can be targeted. Data analysis software can then be used to identify low recycling activity against excessive black bags.
- With the use of technology and reporting software, the service can report Red/Amber/Green status' in 'live time' to enforcement and our external stakeholders such as housing providers and Fly Tipping Action for Wales.

- To measure and monitor performance that can be used to predict performance and areas that need significant improvement.
- To log the residents who require an assisted collection or may require an additional black bag allowance (for example for coal ash waste).
- To map where the flytipping is occurring in conjunction with Flytipping Action for Wales to identify patterns.

Schools

It is recognised that the school children of today will be tomorrow's recyclers and it is vital that recycling becomes part of their everyday life. Whilst learning should begin at home, forming healthy recycling habits can also be instilled at school, from infants through to further education students. Local schools should therefore be part of wider community projects as demonstrated by Scrutiny Committee when involving Heol Y Celyn Primary during the Rhyd Recycle Rescue project.

Since receiving the report I can report that Waste in conjunction with Education have submitted a bid for a Graduate Officer to research how schools can best use education to instil lifelong recycling habits. This will fully support recommendation 11 of the report.

Rhyd Recycle Rescue

The Rhyd Recycling Rescue initiative between RCT and Newydd Housing was well received by residents who commented that more initiatives like this were needed for the future. During the weeks following the initiative, the quality of recycling was improved and the number of black bags was reduced. It has however become evident that sites such as the trial site in upper Rhydfelin need a lot of monitoring as quality has fallen as our presence has reduced. However, with the introduction of re-designed communal bin collection points (in collaboration with Newydd Housing) as early as next month, and using WEBASPX to target poor performing residents our time will be more focused resulting in behaviour change.

It will be interesting to see similar work in another site to compare the results and sustainability.

Social Housing Providers and Flytipping Action for Wales

The work has highlighted how important it is to communicate with the six main social housing providers on a regular basis. There will be some common problems around communal bin collection points such as contaminated recycling, excessive black bag waste and fly tipped bulky items. The work also identified some 'quick wins' such as providing the main housing providers with recycling equipment and literature that can be issued to new and existing tenants.

The work has also highlighted the need to strengthen communications with Fly tipping Action for Wales as we benefit from the intelligence they hold and vice versa. Fly tipping Action for Wales are also knowledgeable of national initiatives and research campaigns that we and the social housing providers can learn from. Housing providers such as Newydd are keen to learn more on this major issue, particularly in Rhydfelin as their costs for removing fly tipping is increasing year on year. Newydd are considering offering e.g. 1 or 2 free collections a year as a cost saving exercise.

Legal Interventions

This area appears to be the most complicated, not helped by the fact that there is no similar work that has been carried out by another Council that we can learn from. There also appears to be GDPR challenges and privacy laws preventing the Council and housing providers from using CCTV at communal bin collection points.

The Council will be able to provide housing providers with performance data such as areas of concern and numbers of FPN's that have been issued. There is still a lot of potential to all in using performance data that will soon be readily available using the WEBASPX systems.

Enforcement

The service is not currently in a financial position to provide an extra two enforcement officers. However by using technology to target problem communal areas and improved collaborative working with stakeholders, we hope that behaviour change will negate the need for enforcement.

Conclusion

As the responsible Cabinet Member, can I again thank all of the Members for their involvement in this important piece of work; the officers who assisted you and the external stakeholders you engaged with. The strategy for changing communal bin collection points into areas that are sustainable and are of high quality will be a long term challenge requiring collaborative working from all.

I believe that taking forward the recommendations outlined within your review will contribute towards meeting future recycling targets and positively improve the Economic, Social and Environmental and Cultural well-being of the people and communities of Rhondda Cynon Taf.

RHONDDA CYNON TAF COUNTY BOROUGH COUNCIL

PUBLIC SERVICE DELIVERY, COMMUNITIES AND PROSPERITY SCRUTINY COMMITTEE

16th January 2020

PRIORITY INVESTMENT UPDATE – PARKS, PLAY AREAS AND PITCHES

REPORT OF THE DIRECTOR PUBLIC HEALTH PROTECTION AND COMMUNITY SERVICES

Author: Mr David Batten, Head of Leisure, Parks and Countryside
Tel: 01443 562202

1. PURPOSE OF THE REPORT

- 1.1 The purpose of this report is to provide Members of the Public Service Delivery, Communities and Prosperity Scrutiny Committee with an update on the Council's priority investment into Parks, Play Areas and Pitches.

2. RECOMMENDATIONS

It is recommended that Members:

- 2.1 Acknowledge the contents of the report and
- 2.2 Consider whether they wish to scrutinise in greater depth any further matters arising from the report.

3 REASONS FOR RECOMMENDATIONS

- 3.1 To provide members of the Public Service Delivery, Communities and Prosperity with an opportunity to examine the progress made in respect of the priority investment programme in Parks, Play Areas and Pitches and identify any other matters that Members may wish to consider in the future.

4. BACKGROUND

- 4.1 Rhondda Cynon Taf has an extensive portfolio of parks and open spaces. There are over 90 public parks ranging from large busy town centre parks like Ynysangharad War Memorial Park, Pontypridd and historic Aberdare Park through to single pitch

playing fields in outlying communities. There is also an extensive sporting infrastructure including 110 football and rugby pitches, 26 bowling greens, 11 cricket squares and 97 pavilions and changing rooms. Most of the facilities and infrastructure is over 40 years old and in need of repair and refurbishment. Prior to the priority investment programme the Parks and Countryside Service relied on a capital allocation of £100k per annum.

- 4.2 The Council is responsible for the maintenance and inspection of 217 children's play areas right across the County Borough. As with the parks and playfields, many of the facilities have been in situ for a long time. Prior to the priority investment programme the service relied on a capital allocation of £50k per annum to upgrade play facilities.
- 4.3 Over the past 6 years, the Council has made a significant investment into 3G pitches with the aim of ensuring that all parts of the County Borough are within easy reach of a facility.
- 4.4 These facilities, many of which are based on school sites, are a vast improvement on the old sand filled carpets particularly for football and rugby. In December 2018, Cabinet approved a common pricing policy and access plan. This has led to the Leisure and Parks departments managing bookings and maintaining all of the facilities, both public and school.

5 PARKS INVESTMENT

- 5.1 Following a series of consultation meetings at the start of this Council period it was identified that parks and playing fields in Rhondda Cynon Taf were in urgent need of significant investment to halt what has been a gradual deterioration over the past 20 years.
- 5.2 The main areas of concern identified were as follows:
 - General infrastructure, particularly roads, paths, walls, fences, culverts
 - Pitches in urgent need of drainage improvements
 - Parks buildings/changing rooms a number of which need total replacement
- 5.3 The outline programme drawn up in 2018 was
 - 18/19 – Infrastructure Work
 - 19/20 – Pitch Drainage/Infrastructure
 - 20/21 – Parks Buildings/Infrastructure

Appendix 1 shows what was completed in 18/19 and what will be completed in 19/20.

The detailed programme for 20/21 has not yet been agreed.

- 5.4 The headline figures are that in to date £1.8 million of additional funding has been allocated and over 100 schemes have been completed.

6. PLAY AREAS

- 6.1 The priority investment programme for Play Areas commenced in 2015/16. By the end of this financial year, 111 play areas will have been enhanced with an additional £1.85 million allocated for this work.
- 6.2 Appendix 2 shows the RAG status of all the children's play areas as of December 2019. As can be seen a significant percentage of play areas are now classified as green. The investment has been spread across wards with the ultimate target to ensure that all facilities rated at least yellow and green.
- 6.3 The programme for 2019/20 is the refurbishment of a further 17 play areas at a cost of £550k plus a further £200k which has been allocated for the improvement of Multi Use Game Areas (MUGA) and for the renewal of skate parks.

7. 3G PITCHES

- 7.1 The full list of 3G pitches in RCT is included as Appendix 3. All of these pitches have been delivered since 2013. There is one further pitch to be provided in the Treorchy area, which will then complete the Council's aspiration to have a 3G pitch within a 3-mile radius of every community in RCT.
- 7.2 Whilst 3G pitches are more expensive to maintain they are playable 7 days a week and are unaffected by weather conditions. This has provided the opportunity to divert much of the training and mini/junior usage that currently takes place on grass pitches onto the 3G pitches. Appendix 3 also gives details for the number of public hours that are currently being booked by clubs.
- 7.3 In addition to the 3G investment programme, the Council has allocated a further £850k for the refurbishment of the King George V running track at Clydach Vale. Once completed the six lane, which has been constructed to meet UK athletics standards for regional competition, will provide a much-needed investment into sports facilities in the West of the County Borough.

8. EQUALITY AND DIVERSITY IMPLICATIONS

- 8.1 There are no Equality or Diversity Implications aligned to this report.

9. CONSULTATION

- 9.1 In 2015/16 the Council Leader, Cabinet Member and Officers held a series of consultation meetings with sports clubs across the County. The feedback from these meetings has informed the priority investment programme into Parks and Sports pitches.
- 9.2 The Play Area team routinely consult children, schools and community groups on key refurbishment projects. In addition, the team has met with neighbouring Councils to review alternative equipment and have visited parks and play areas in the region to broaden product knowledge.

10. FINANCIAL IMPLICATIONS

- 10.1 An additional £1.8 million of priority investment funding has been allocated to parks and sports pitch schemes to date.
- 10.2 An additional £1.85 million has been allocated for the refurbishment of children's play areas to date.
- 10.3 The Council has, through the Capital budget and the 21st Century Schools budget, allocated in excess of £4 million for the development of 3G facilities. This figure does not include the 3G facilities that were included in major school re-development projects e.g. Tonyrefail and Aberdare Community School/Sobells.

11. LEGAL IMPLICATIONS OR LEGISLATION CONSIDERED

- 11.1 There are no legal implications aligned to this report.

12. LINKS TO THE CORPORATE AND NATIONAL PRIORITIES AND THE WELLBEING AND FUTURE GENERATIONS

- 12.1 The development of new facilities throughout communities in Rhondda Cynon Taf support the Well-being of Future Generations (Wales) Act seven well-being goals improving the social, economic, environmental and cultural well-being of the County Borough and Wales.

- 12.2 Improved facilities providing increased sport, active recreation and play opportunities within local communities positively affecting the health and wellbeing of those that live and work in Rhondda Cynon Taf.
- 12.3 Improved local community facilities provide a safer place for people to visit and enjoy, reducing the levels of anti-social behaviour and other crime.
- 12.4 The development of local community facilities including 3G, parks and playgrounds builds cohesive communities creating neighbourhoods where people are proud to live and work.
- 12.5 Developed facilities in close proximity to town centres contribute to the economic regeneration of the town and wider County Borough developing a prosperous Rhondda Cynon Taf for future generations.

13. CONCLUSION

- 13.1 RCT Council has made a significant financial commitment to upgrade and refurbish its parks and play areas
- 13.2 The Council has also allocated significant resources to provide new 3G facilities across the county borough. These facilities are increasingly well used, particularly by junior sport, and represent a major step forward in the standard of outdoor facility provided by the Council.
- 13.3 The priority investment in to parks, paly areas and 3G facilities have been made during a prolonged period of austerity for local government and are the envy if the majority of council's in Wales.

Public Service Delivery, Communities and Prosperity Committee – Priority Investment Update – Parks, Play Areas and Pitches Appendices

Appendix 1 – Summary of Parks Capital Works

2018/19

Park	Scheme	Actual Spend
Tynewydd Recreation ground	Infrastructure	£14,091.33
Pengelli Park	Infrastructure	£8,850.00
Ystradfechan Park	Infrastructure	£20,136.75
Treorchy Oval / Cae Mawr Fields	Parks Building & Infrastructure	£10,327.83
Pentre Park	Parks Building & Infrastructure	£32,532.56

The number of hours doesn't include any one off casual bookings taken for evenings and weekends.

The pitches with the highest number of hours doesn't always correlate to the most income taken, this is due to the difference in hire charges between junior, senior and commercial.
