

Proposal to create a Sixth Form ‘Centre of Excellence’ at Bryncelynnog, utilise post 16 provision at Coleg y Cymoedd and St David’s College, Cardiff, and to remove sixth form provision at Cardinal Newman RC Comprehensive, Hawthorn and Pontypridd High Schools

Community Impact Assessment

This assessment is prepared in accordance with guidance contained within Annex C of the new statutory guidance circular 011/2018, the School Organisation Code, which was implemented with effect from 1st November 2018. For this purpose, circular 011/2018 incorporates all statutory obligations contained within statutory guidance circular 006/2013.

This proposal was consulted on between 15th October 2018 and 31st January 2019, as part of a wider consultation regarding the reorganisation of school provision in the Pontypridd and Hawthorn areas of Rhondda Cynon Taf. A detailed consultation document was circulated to all prescribed consultees. Copies were forwarded to Welsh Government in compliance with consultation and publication guidelines. The document advised of the availability of all required Impact Assessments and informed all consultees as to how they could obtain copies if they required them.

The reasons for consideration of this particular proposal are fully outlined in the consultation document that has been widely distributed; this document clearly outlines the background to the proposal and why it has been necessary to bring it forward at this point in time.

It must be noted that we are not closing any secondary school provision as a consequence of this particular proposal. The three schools that may lose 6th form provision will remain in situ, albeit with changes made to the age range of pupils they wish to admit (amended from 11 – 19 years to 3 – 16 years or 11 – 16 in the case of Cardinal Newman). Bryncelynnog Comprehensive School will have additional accommodation and facilities provided. Separate Community Impact Assessments have been prepared in respect of all other proposals being consulted upon at the current time.

Taking into account the information provided above, it is considered that the 6th form element of our Hawthorn and Pontypridd School Reorganisation Proposals will have a neutral effect on the communities they serve. All facilities and services provided by these schools to their communities will remain in place. It is for this reason that a more detailed Community Impact Assessment has not been prepared for this proposal, as it is not deemed to be applicable or appropriate in the circumstances.

The only potential impact will be on the pupils who may require 6th form education in the future, in that they may have to travel longer distances to access this provision. There are far too many different ‘permutations’ to outline the distances involved for individual pupils in this report.

Appendix B – Community Impact Assessments

Transportation for pupils will be provided in accordance with the Council's Learner Travel Policy in force at the time of the transfer of the post-16 provision to their new locations. Assessments will be undertaken in accordance with legislation in force and will involve the application of both distance and dangerous route criteria, if applicable.

Proposal to close Hawthorn Primary, Heol y Celyn Primary and Hawthorn High Schools and to create a new 3 – 16 school on the adjacent sites of the current Hawthorn Primary and Hawthorn High Schools

Community Impact Assessment

This assessment is prepared in accordance with guidance contained within Annex C of the new statutory guidance circular 011/2018, the School Organisation Code, which was implemented with effect from 1st November 2018. For this purpose, circular 011/2018 incorporates all statutory obligations contained within statutory guidance circular 006/2013.

This proposal is being consulted on between 15th October 2018 and 31st January 2019, as part of a wider consultation regarding the reorganisation of school provision in the Pontypridd and Hawthorn areas of Rhondda Cynon Taf. A detailed consultation document has been circulated to all prescribed consultees. Copies have been forwarded to the WG in compliance with consultation and publication guidelines. The document advises of the availability of all required Impact Assessments and informs all consultees as to how they can obtain copies if they require them.

At the time of the consultation, the percentage of pupils attending the respective schools who resided within the catchment areas of those schools was as follows:

- Hawthorn Primary – 46%
- Heol y Celyn Primary – 75%
- Hawthorn High – 85%

A significant percentage (40%) of the children attending Hawthorn Primary School, or 97 children in total actually resided in the adjacent catchment area of Heol y Celyn Primary; some actually live in the same street that Heol y Celyn is situated in. We do not consider therefore that transferring the English Medium stream of Heol y Celyn to the new 3 -16 provision at Hawthorn will have an adverse effect on either the children or the local community, as many parents are already exercising their right to choose this school for their children.

Appendix B – Community Impact Assessments

The two Primary schools offer breakfast clubs to all pupils at present; we will recommend that this provision should continue in the new 3 - 16 school if these proposals are agreed.

Neither of the two Primary schools are used outside of school hours by community organisations; any usage made is by school based groups such as the PTA. Both offer after school clubs to their pupils, Heol y Celyn has football, netball and gymnastics clubs on three evenings a week and Hawthorn has various clubs running on three evenings a week.

The Secondary school runs a full programme of extra-curricular activities after school each day. The full facilities of the current Secondary school will be available for the younger children to use, under supervision, so the programme of after school activities available to them can in fact be enhanced and extended.

There is a swimming pool on the High school site that is also open to the public; the organisation and running of this facility will not change as a result of these proposals.

This proposal seeks to enhance the school accommodation and facilities available to both Primary and Secondary aged pupils resident in the Hawthorn area , to cater for all children who may attend the school in the future from its catchment area (which will differ for the Primary and Secondary departments of the new proposed 3 – 16 School). This is not a rural area, and the existence of so many other schools and other community facilities within a short distance means that it is not deemed necessary to consider the enhancement of other community facilities that may exist in the local area.

The catchment area for Primary aged pupils who may attend the new 3 – 16 school will be that of the current Hawthorn Primary and the English medium stream of Heol y Celyn, combined. The distance between the Heol y Celyn site and the site of the new school is just 1 mile; this is the driving distance, the walking distance is shorter. Hawthorn Primary School is located immediately adjacent to the Hawthorn High School site and the distance between them is just a few metres.

No address within the extended Primary age catchment area will qualify for free home to school transport on the grounds of distance, as the furthest addresses from the new school site are all within the qualifying distance, which is 1.5 miles for Primary aged pupils in Rhondda Cynon Taf. The furthest address on the eastern side of the catchment area is 0.9 miles; on the upper western side of the catchment area it is 1.2 miles. It is not considered that these distances will be a barrier to any child who wishes to participate in the pre, and after school provision that will be offered at the new 3 - 16 School in the future; all pupils will be given equal access and encouragement to participate in as many activities as they wish. Having all Primary aged pupils in the Hawthorn area in one school, along with their elder siblings who may attend the Secondary department is considered to be of benefit to parents in

Appendix B – Community Impact Assessments

future, as their children's school provision will be located on one site, as opposed to being a mile apart as it is at present

The catchment area of the Secondary section of the new school will remain as it is for the existing Hawthorn High School, with the exception of the omission of the catchment area of Coedpenmaen Primary School, Pontypridd plus the Graig area of Pontypridd that is in the catchment area of Maesycod will also be omitted. Transportation for children will be provided in accordance with the Council's Learner Travel Policy in force at the time of the transfer of school provisions to the new 3 - 16 School. Assessments will be undertaken in accordance with legislation in force and will involve the application of both distance and dangerous route criteria, if applicable.

Proposal to close Cilfynydd Primary and Pontypridd High Schools and to create a new 3 – 16 school on site of the current Pontypridd High School

Community Impact Assessment

This assessment is prepared in accordance with guidance contained within Annex C of the new statutory guidance circular 011/2018, the School Organisation Code, which was implemented with effect from 1st November 2018. For this purpose, circular 011/2018 incorporates all statutory obligations contained within statutory guidance circular 006/2013.

This proposal was consulted on between 15th October 2018 and 31st January 2019, as part of a wider consultation regarding the reorganisation of school provision in the Pontypridd and Hawthorn areas of Rhondda Cynon Taf. A detailed consultation document was circulated to all prescribed consultees. Copies were forwarded to the WG in compliance with consultation and publication guidelines. The document advised of the availability of all required Impact Assessments and informed all consultees as to how they could obtain copies if they required them.

At the time of the consultation, the percentage of pupils attending the respective schools who resided within the catchment areas of those schools was as follows:

- Cilfynydd Primary – 90%
- Pontypridd High – 68%

A relatively large number of children (30) who reside in the Cilfynydd catchment area choose to attend Coedpenmaen Primary School, which is approx. 1 mile from Cilfynydd Primary. This number of children represents 27% of the total number of statutory age children who currently attend Cilfynydd Primary.

Appendix B – Community Impact Assessments

Cilfynydd Primary School offers breakfast club to all pupils at present; we will recommend that this provision should continue in the new 3 - 16 school if these proposals are agreed.

Cilfynydd Primary is not used outside of school hours by community organisations; any usage made is by school based groups such as the PTA. The school offers after school clubs to its pupils on two evenings each week.

The Secondary school runs a full programme of extra-curricular activities after school each day. The full facilities of the current Secondary school will be available for the younger children to use, under supervision, so the programme of after school activities available to them can in fact be enhanced and extended.

There is a sports hall on the High school site that is widely used by community groups outside of school hours; the organisation and running of this facility will not change as a result of these proposals.

This proposal seeks to enhance the school accommodation and facilities available to both Primary and Secondary aged pupils resident in the Pontypridd area , to cater for all children who may attend the school in the future from its catchment area (which will differ for the Primary and Secondary departments of the new proposed 3 – 16 School). This is not a rural area, and the existence of so many other schools and other community facilities within a short distance means that it is not deemed necessary to consider the enhancement of other community facilities that may exist in the local area.

The distance between the existing school and new school sites for Primary aged pupils who may attend the new 3 – 16 school is just 0.9 of a mile; this is the driving distance, the walking distance is much shorter, via a footbridge over the A470 trunk road.

No address within the Primary age catchment area will qualify for free home to school transport on the grounds of distance, as the furthest addresses from the new school site are all within the qualifying distance, which is 1.5 miles for Primary aged pupils in Rhondda Cynon Taf. The furthest address on the eastern side of the Cilfynydd catchment area to the site of Pontypridd High (Albion Court) is 1.4 miles by car and 1.1 miles on foot. It is not considered this distance will be a barrier to any child who wishes to participate in the pre, and after school provision that will be offered at the new 3 - 16 School in the future; all pupils will be given equal access and encouragement to participate in as many activities as they wish. Having all Primary aged pupils in the Cilfynydd area of Pontypridd in one school, along with their elder siblings who may attend the Secondary department is considered to be of benefit to parents in future, as their children's school provision will be located on one site, as opposed to being almost a mile apart as it is at present

The catchment area of the Secondary section of the new school will remain as it is for the existing Pontypridd High School, with the addition of the catchment area of Coedpenmaen Primary School. The Graig area of Pontypridd that is in

Appendix B – Community Impact Assessments

the catchment area of Maesycoed Primary School, will also be included. Transportation for children will be provided in accordance with the Council's Learner Travel Policy in force at the time of the transfer of school provisions to the new 3 - 16 School. Assessments will be undertaken in accordance with legislation in force and will involve the application of both distance and dangerous route criteria, if applicable.

Proposal to close YGG Pont Sion Norton and Heol y Celyn Primary School (dual language) and to open a new, enlarged Welsh Medium Community Primary School on the former Heol y Celyn site.

Community Impact Assessment

This assessment is prepared in accordance with guidance contained within Annex C of the new statutory guidance circular 011/2018, the School Organisation Code, which was implemented with effect from 1st November 2018. For this purpose, circular 011/2018 incorporates all statutory obligations contained within statutory guidance circular 006/2013.

This proposal was consulted on between 15th October 2018 and 31st January 2019, as part of a wider consultation regarding the reorganisation of school provision in the Pontypridd and Hawthorn areas of Rhondda Cynon Taf. A detailed consultation document was circulated to all prescribed consultees. Copies were forwarded to the WG in compliance with consultation and publication guidelines. The document advised of the availability of all required Impact Assessments and informed all consultees as to how they could obtain copies if they required them.

At the time of the consultation, the percentage of pupils attending the respective schools who reside within the catchment areas of those schools was as follows:

- YGG Pont Sion Norton – 91%
- Heol y Celyn (Welsh Unit only) – 88%

A relatively large number of children (30) who reside in the Heol y Celyn catchment area choose to attend other Welsh Medium schools in the area, including YGG Pont Sion Norton and YGG Evan James. These pupils may possibly choose to return to their catchment school if a new, full Welsh Medium school is constructed on the Heol y Celyn site.

Both schools offer breakfast club to all pupils at present; we will recommend that this provision should continue in the new Welsh Medium Primary school if these proposals are agreed.

Appendix B – Community Impact Assessments

Heol y Celyn Primary is not used outside of school hours by community organisations; any usage made is by school based groups such as the PTA. The school offers after school clubs to its pupils on three evenings each week.

YGG Pont Sion Norton hosts Welsh for Adults classes on one evening a week, organised by the University of South Wales. Menter Iaith also host their 'Clwb Carco' after school provision for pupils on two evenings each week, in addition the school itself offers their own after school clubs on two evenings each week.

The new school will be strongly encouraged to continue with the after school and adult education provision currently offered, with opportunity to expand and extend this if there is recognised demand.

This proposal seeks to enhance the school accommodation and facilities available to pupils who require a Welsh Medium education in the Pontypridd area. In addition to improving provision, it is hoped that a new school with 21st Century Schools facilities will encourage parents to choose a Welsh Medium education for their children, thus assisting the Council in achieving one of the key aims outlined in its Welsh in Education Strategic Plan (WESP). This is not a rural area, and the existence of so many other schools and other community facilities within a short distance means that it is not deemed necessary to consider the enhancement of other community facilities that may exist in the local area.

The catchment area of the new school will encompass that of the existing two schools. The relocation of YGG Pont Sion Norton to the Heol y Celyn site will mean that all pupils resident within this school's current catchment area will qualify for, and receive free home to school transport, as they will reside more than 1.5 miles from the new school. No child resident in the Heol y Celyn part of the catchment will qualify as none will reside more than 1 mile from the school. It is not considered that distance to school will be a barrier to any child who wishes to participate in the pre and after school provision that will be offered in the new school; it is estimated the maximum length of time any child will have to take to travel to the school will be 20 minutes.

Transportation for children will be provided in accordance with the Council's Learner Travel Policy in force at the time of the transfer of school provisions to the new site. Assessments will be undertaken in accordance with legislation in force and will involve the application of both distance and available route criteria, if applicable.
