## **8. LINKS TO THE CORPORATE AND NATIONAL PRIORITIES AND THE WELLBEING OF FUTURE GENERATIONS ACT**

8.1 The Well-being of Future Generations Act asks public bodies to work better with people, communities and each other to meet the Sustainable Development principle. The Council’s approach to the implementation of the Act agreed by Cabinet is to make sure that its requirements are embedded into the everyday business, this includes this Framework.

**To deliver the Sustainable Development principle, the Act sets out five ways of working;**

1. **Involvement** of those with an interest in our plans and seek their views
2. Balancing short term need with **long term** and planning for the future
3. **Collaborating** with others to deliver objectives
4. considering the impact on all well-being goals together and on other bodies by **integrating** our plans and policies etc.,
5. putting resources into **prevention** so that problems don't occur or get worse

By implementing this Framework, we will help services to embed 'Involvement' into their plans and arrangements and so enable to the Council to meet its statutory requirements under the Act.
