

**RHONDDA CYNON TAF COUNTY BOROUGH COUNCIL**

**CORPORATE PARENTING BOARD**

**January 2021**

**INDEPENDENT REVIEWING SERVICE MONITORING REPORT**

**Authors: Emma Walters, Service Manager Safeguarding  
Ceri Mann, Reviewing Team Manager, RCT Childrens Services  
Tel: 01443 484520**

**1. PURPOSE OF THE REPORT**

The purpose of the report is to provide information about the discharge of the Independent Reviewing Officer (IRO) functions for children looked after (CLA) for the period **1<sup>st</sup> April 2020 – 31<sup>st</sup> December 2020**. The Report is also presented to the Corporate Parenting Board.

Corporate Parenting Board Members are already familiar with the IRO role from prior reports and going forward, the context for that will be provided in an Appendix document included in the agenda.

**2. RECOMMENDATIONS**

It is recommended that the Corporate Parenting Board note the information contained within this report.

**3. THE REVIEWING SERVICE**

The Reviewing Service currently sits within the remit of the Head of Service for Safeguarding. It currently comprises 12 IRO full-time posts (up from 11 following the additional P-T hours agreed), 3 of which are filled by 6 part time staff, 2 Business Support staff who are responsible for taking notes in complex CLA Reviews, and a Team Manager who is line managed by the Service Manager for Safeguarding. The interim Service Manager Emma Walters has now been appointed on a permanent basis.

As a result of COVID all the service functions are currently being delivered remotely. Whilst necessary under the circumstances, this creates challenges for the service as best practice is that these meetings

should be held face-to-face and at the child's preferred venue (e.g. placement, school). Initially Reviews were conducted using telephone conference calling until TEAMS became available, and we are now in a position where we can invite children and their families to be a part of the video call.

The rapid move to Agile working and WFH (with children being home schooled), whilst trying to chair complex and emotionally charged meetings via a digital platform (using technology that is not always reliable), clearly created particular pressures at the beginning of the lockdown for staff., The service has had to fundamentally alter the way it works, whilst being expected to operate to the same capacity; in a way that does not facilitate best practice with children and families. Staff have responded with impressive levels of patience and admirable commitment whilst adapting to the challenges they have faced and are working well under considerable pressure.

Once lockdown ends and the impact of the Council move towards remote working is clear, suitable accommodation for the delivery of hybrid meetings will have to be given priority by Corporate, as there has historically been a shortage of suitable venues for meetings within RCT.

**4. PERFORMANCE INFORMATION**

## **5. REVIEW ACTIVITY 1<sup>st</sup> April 2020 – 31<sup>st</sup> December 2020**

### **CLA Numbers:**

Overall, we are seeing a reduction in admission figures, and the number of CLA admissions during the period January 2020 to December 2020 decreased by 30 when compared to the same period in 2019, a 17% decrease in admissions.

During this reporting period (covering Q 2, 3 and 4) the total number of children looked after fluctuated between 700 and 716 - a reduction in overall numbers on the previous reporting period (717 at its highest). Given the impact of lockdown on families and the challenges this has presented the LA in terms of finding placements, moving children between and out of placements safely and in line with WG procedures, the reduction and stability of number is not surprising.

**CLA By Age:**

As of the end of 31/12/20, 34% of admissions were for children aged under 1 year old. The numbers have increased by 8 when compared to the same period in 2019 and the trend shows that this age group continues to have the highest number of admissions. 32 out of the 49 babies (under 1) becoming looked after were boys.

The number of children aged 1-4 increased during 2020 with 31 children becoming looked after compared to 28 in 2019.

The number of children being brought into care aged 16+ had decreased by 4 when compared to the same period in 2019 - from 11 to 7 - which makes up 5% of the overall figure in 2020.

Based on current CLA numbers the highest number are in the 10-15 age group. This age group is consistently the highest percentage.

**Placement Details:**

At of the end of 31/12/20 most children are placed with Relative Carers (33%). This figure includes approved and non- approved kinship carers.

In House Foster Care placements continue to be higher than Independent Sector Foster Care.

The number of Mother and Baby placements has increased from 1 to 6 over the last 12 months.

The number of children placed with parents has increased by 1 over the last 12 months.

70% of looked after children were residing within RCT on the 31/12/2020. 211 children were in placements outside RCT on 31/12/2020 and of these 11 were residing outside Wales.

**Placement Stability:**

This is a Welsh Government Performance Indicator that we report on quarterly and the target for 2019/20 was 6%. Performance has improved since year end 19/20 and we achieved target at the end of Quarter 3 with 5.4%.

Children move placement for a variety of different reasons & some of the 3rd placements will relate to children's moves to a permanent long-term placement. Performance can also be affected by the continued high number of children looked after which can put pressure on placement availability.

**Adoption:**

14 children have had a Placement Order granted between January 2020 to December 2020. Of these children, 7 have been placed with prospective adopters and the remaining 7 children are residing in foster care placements.

In comparison to the previous year there has been a 46% decrease in the number of Placement Orders granted.

A total of 21 adoption placements were started between January 2020 to December 2020 which is a 22% decrease compared to the previous year.

16 Adoption Orders have been granted over the last 12 months which is 50% less than compared to the previous year.

### **Admissions and Discharges:**

138 children ceased being looked after between January 2020 and December 2020. This is a 7% decrease in numbers compared to the same period January 2019 to December 2019 where 151 children ceased being looked after.

In relation to where the children reside upon leaving care, 49% of children returned home Family/Extended Family during the period which is the highest percentage.

16 children (12%) had Adoption Orders granted so now reside with their adoptive families.

35 children (25%) remained with foster carers either as a 'When I'm Ready' arrangement upon turning 18 or subject to a Special Guardianship Order.

Independent living accounted for 12% and these are mainly young people aged 16+.

In relation to the ages of children when they cease being looked after, more children left care aged 18 accounting for 31% of the total number.

The second highest age group were aged 1 - 4 accounting for 20% out of the total. Out of the 28 children in this age group 50% were adopted and 39% returned home to parents.

Young people aged 16+ are the highest group to remain with foster carers under supported lodgings or When I'm Ready arrangements. The 11 children aged 0-15 remained with foster carers as part of a Special Guardianship Order.

There are currently 285 care leavers open to the 16+ teams aged between 18-25. 48% of these young people reside in Independent Living placements which is the highest percentage. 46% of these young people in Independent Living placements are aged 18-21.

18% of Care Leavers reside with Family or Relatives and 7% remained with their Foster Carers as part of a 'When I'm Ready' arrangement. There have been 94 Young Persons placed in When I'm Ready placements since the scheme started in 2015. 50% (47) of these YP remained with their Former Independent Foster Carers, 30% (28) with RCT Foster Carers and 20% (19) with Relative Carers. Five former WIR placements still return to their carers from University during holiday breaks and some have returned during the lockdown periods due to Covid-19.

5 YP aged 18-21 are not engaging with 16+ and their whereabouts are currently unknown.

Of the 285 care leavers aged 18-25, 16 have a category of homeless recorded. Some of the reasons for homelessness can relate to care leavers leaving home due to relationship breakdowns that result in them moving frequently between

friends and family. Being unable to remain in housing due to affordability problems, mental health issues or leaving prison with no home to go to.

### CLA Reviews

#### CLA Review's in Time January 1<sup>st</sup>, 2020 to March 31<sup>st</sup> December 2020

1,382 CLA review meetings were due in this 9-month period and our CLA Review performance was at 97% at the end of December 2020.

	Apr20	May20	Jun20	Jul20	Aug20	Sep20	Oct20	Nov20	Dec20	Total
<b>Number of CLA Review's Due</b>	167	152	149	155	119	198	151	130	161	<b>1382</b>
<b>Number of CLA Review's in Time</b>	163	149	144	151	117	187	149	125	156	<b>1341</b>
<b>% In Time</b>	98%	98%	97%	97%	98%	94%	99%	96%	97%	<b>97%</b>

In addition, IROs chaired **11** combined CLA Reviews and Review Conferences to remove the names of children looked after under Care Orders from the Child Protection Register, and **12** IFSS (Integrated Family Support Service) Reviews.

### 6. REASONS FOR CANCELLATION

Only 41 Reviews were not held in time between April 2020 to December 2020, which equates to just 2.96%, a positive decrease compared to the last reporting period, and a significant achievement considering the circumstances facing the service. Every effort is made to ensure that cancelled reviews are reconvened within time, and when this isn't possible permission to go out of time should be sought from a Service Manager or Head of Service. This is reflected in the significantly lower number of reviews that have gone out of time to those that have been rearranged within time.

The reasons for cancellations / delays vary, but a number are undoubtedly due to the impact of Covid on the availability of family, social workers, IRO's and other professionals - in particular where services and service provision has had to adapt throughout the pandemic. Further examples of CLA reviews being cancelled include to allow newly allocated workers opportunity to meet with the children and their families to ensure that the review is affective, or to

combine the CLA review with a Review Child Protection Conferences, thereby reducing the number of meetings for families and professionals.

### **Quarter Comparators (over this reporting period and with Q4)**

#### **January - March 2020**

424 Reviews held within timescale and 23 outside Total 447 = **94.85 %**

#### **April - June 2020**

456 Reviews held within timescale and 12 outside Total 468 = **97.44 %**

#### **July - September 2020**

455 Reviews held within timescale and 17 outside Total 472 = **96.4%**

#### **October – December 2020**

430 Reviews held within timescale and 12 outside Total 442 = **97.29%**

## **7. CURRENT ISSUES FOR THE REVIEWING SERVICE**

We are currently carrying some management level absences and vacancies, and to date Randstad have been unable to provide a suitable replacement and discussions are taking place with an external Consultant to explore them providing some additional capacity. After carrying two IRO vacancies through 2019 and into early 2020, we appointed two new IRO's in February 2020. One was due to commence in April 2020, but because of the pandemic, her start date was delayed until August 2020 so that she could continue to support Intensive Intervention. She is now in post and settling well. The other appointee withdrew, and we continued to carry that absence until very recently, when the new worker started in post.

During this reporting period we have had agreement to convert a part-time member of staff to a full-time post, in recognition of the increased demands on the service and the lack of investment for a significant period. We have identified a suitable internal member of staff, who should take up the post in March 2021.

We continue to experience ongoing sickness absence within the service, including amongst business support colleagues, which has resulted in the remaining staff having to take on more work, which has clearly had an impact on the completion of paperwork within timescales. Where necessary to cover work and meet statutory timescales, we have offered additional hours to existing P-T staff.

The Service Manager has introduced processes to ensure that monitoring of the progress of the Care and Support Plan between Review meetings is happening more consistently and recorded. To do this the IROs require adequate time to perform this function as it can often entail things needing to be chased up with the child's social

worker and the child to be spoken to if there are any outstanding concerns; something which is challenging under the current circumstances.

Despite high CLA numbers, the recent IRO appointments have ensured that every Looked After Child is allocated a named IRO from within the service. The IRO's are carrying caseloads higher than ideal because of the staffing gaps that have existed (England has set targets for IRO caseloads that we exceed) and the new appointments will hopefully assist in seeing them reduce. During this reporting period the service has experienced an increase in late requests for meeting changes, attributable in part to the impact the pandemic is having on multi-agency capacity and operational delivery; all of which creates additional bureaucratic demands on the service as meetings have to be rescheduled.

It was reported previously to Corporate Parenting Board that we were seeing cases where Placement with Parent review meetings are having to be convened at very short notice because of decisions being made in Court that children should return home on Care Orders, and whilst this continues to be the case, we are seeing fewer in number.

## **8. RESOLUTIONS RAISED BY IRO'S APRIL 2020 - DECEMBER 2020**

In total **11** resolutions were raised in this reporting period, less than we have previously reported. It should be noted that this is a very low percentage in terms of the total number of Care and Support plans that are reviewed by the IROs. Whilst this would indicate that the majority of children are having their needs met it should be noted that at the beginning of the pandemic IRO's were asked to be mindful of the demands and challenges experienced by frontline social workers as they adjusted to the agile working practices and to resolve issues informally wherever possible.

### **Theme: Recommendations Not Being Acted On**

The role of the IRO carries with it personal responsibility for carrying out his or her functions. In a case in 2012, *A & S v Lancashire CC* [2012] EWHC 1689 (Fam) it was clarified that the IRO may be held personally responsible for:

- a) Identifying if a child or young person's human rights are being infringed;
- b) Ensuring that the local authority acts upon the recommendations of the CLA review;
- c) Referring to CAFCASS if the child/young person's human rights are infringed or significant recommendations of the review are not acted upon.

The 'decisions' made during a review are, in fact, 'recommendations' to the local authority, but there is an expectation that they will be acted on unless the Team Manager chooses not to and informs the IRO of this decision – thereby allowing the IRO to challenge the decision within the resolution process if they feel it is necessary to do so.

### **Resolution:**

There had been discussion between the social worker and IRO as to whether the plan for a young person to remain in a residential school was still in their best interests and for that reason the decision was made in the CLA review in January 2020 for a comprehensive assessment to be undertaken to ensure that the plan continued to be in the child's best interests. A comprehensive assessment is, as the

name suggests a significant piece of work that takes into account all aspects of a child's life and their wishes and feelings when assessing their needs, and will also rely on the views of partner agencies as well as family members.

Unfortunately the Covid pandemic meant that assessment wasn't undertaken in person as it would ordinarily have been, and as a result the report had not been shared or discussed with the young person (the subject). The IRO also drew attention to the delay in beginning the assessment before the Covid outbreak.

**Outcome:**

The social worker and team manager acknowledged that there had been a delay in starting the assessment and explained that court proceedings in relation to other cases on their caseload had contributed to the delay, and that this was compounded by the pandemic.

The IRO received reassurances that as soon as government guidelines were eased the social worker would prioritise a visit to the child in placement to discuss the report and its recommendations. The IRO postponed a planned CLA review to ensure that there was an opportunity for this to happen and that the child and her parents were able to fully participate and could challenge or offer an informed view on the assessment if necessary.

**Theme: Life Journey Work**

Life journey work is a sensitive and emotive piece of work that will explain to a child why they became looked after, who looked after them, as well as why certain key decisions were made on their behalf that will have had a significant impact on the rest of their lives. It is a document that they will carry with them throughout their childhood and into adulthood. It will include not only photographs of the significant people in their lives but also important memories. It will usually have been completed before the Adoption Order is granted because it is one of the National Adoption Indicators. There is an expectation that by the second adoption review meeting, a child's later life letter and life journey work will have been completed.

**Resolution:**

Having asked in the second adoption review of a child whether the later life letter and life journey work had been completed the IRO was told that there had been a delay because the life journey work had been allocated to a Life Journey Worker, and that the later life letter was being amended because it was confusing and unclear.

**Outcome:**

The IRO negotiated realistic timescales with both the responsible Team Manager and the adoption support worker for the completion of both documents and invited the life journey worker to contact him directly if any issues arose that prevented the work being completed as agreed.

The IRO received confirmation that the work had been completed within the month

**Theme: Delay in complying with Court Directions**

It is the role of the IRO to ensure that Court directions in relation to the care of a child are undertaken at the end of proceedings, and to raise issue where there is an unacceptable delay in doing so.

**Resolution:**

Unusually in this specific example, whilst RCT had been granted a Care Order in respect of a sibling group of children, the court placed the responsibility for funding their play therapy with a different LA.

RCT Children's Services had identified play therapists able to meet the identified needs of the children as was required, but the responsible LA were unhappy with the prices quoted and refused to meet the full amount. The IRO raised a resolution in relation to significant delay in the children receiving the play therapy.

**Outcome:**

Out of concern for the impact the delay was likely to have upon the children agreement was reached for the play therapy to begin, and for RCT to meet any shortfall whilst negotiation continued with the responsible LA.

**9. DEVELOPMENT WORK****Conference Calling:**

Since the start of the pandemic, the Service has become completely reliant upon the use of technology. Initially IRO's were having to chair both CLA reviews and Child Protection Conferences using mobile phone conferences calling facilities. Unfortunately, this limited the number of participants to five and was not child friendly. There was no capacity to enable a minute taker to attend and so the workload for IRO's substantially increased.

More recently our Business Support have acquired Microsoft Teams Meetings Licences which allow them to set up video conferencing for children, families and professionals. Whilst the uptake from parents involved in the child protection planning process has been encouraging, there is a sense amongst the team that this isn't the case with our looked after children. Some of the feedback given to IRO's is that children don't want to participate in video-conferences or they don't want to be seen / see themselves on a screen.

**Consultation Documents:**

Historically social workers have encouraged children and young people to complete a review consultation document during their visits to placements, but in an attempt to ensure that the child's voice is heard (in light of children's poorer participation) links to the online consultation document are being attached to all invitations whether to the child, family or professionals. Unfortunately, whilst there have been some responses, once again the numbers are relatively low with approximately 30 received for the whole of November and December 2020.

As a result of the ongoing work with WiCID to host the 2 Sides content, the Service been in contact with RCT's Consultation Team who are in the process of reviewing the consultation questions and acquiring a "photo symbols licence" so that the document can be made far more visually appealing and child friendly. A meeting is planned to discuss the progress of this work at the end of January 2021.

IRO's continue in their efforts to speak to children in advance of their Review meeting to both ascertain the issues that are pressing and important to them, and to encourage their participation in the reviews themselves.

The Reviewing Team are also beginning to undertake mid-point reviews as a means

not only of promoting contact with the child / young person in between review meetings, but as a means of monitoring a case on a continuing basis so as to ensure that the care and support plan remains in the child/young person best interests. Although there is more work to be done, IRO's are making efforts not only to speak to the child, but also parents, carers and social workers to ascertain whether decisions have been actioned and how they perceive the plan to be progressing.

### **Voices from Care:**

The Service approached Voices from Care a short time after video conferencing had been introduced to ask whether they had undertaken any work or knew of any research with regards to promoting children's participation in meetings using video technology and the various platforms. It was somewhat reassuring to discover that Voices from Care have also experienced difficulties engaging young people in this way although they weren't in a position to offer any advice.

VFC continue to forward information regarding ongoing projects and online events to the Reviewing Team Manager so that they can be distributed to Children's Services staff, The Reviewing Team Manager has also introduced VFC to the new Fostering Team Manager with a view to enabling information to be shared directly with children and carers.

### **Hybrid Meeting:**

It has been the Service's goal throughout the pandemic to work towards hybrid meetings, and the issues already raised re children's participation highlights the need to do so as soon as it is practical. The service has used the term hybrid meeting to describe a meeting where family, social worker and IRO can socially distance in one room whilst professionals can continue to participate using video conferencing. This will be dependent upon us being able to secure access to appropriate office accommodation. It should be noted however that depending what office space is available Case Conferences are likely to be the priority for hybrid meetings given the levels of stress and anxiety families experience in them.

### **2Sides Website:**

The Reviewing Team Manager has met with Abbie Davies (WiCID Editor) and her manager Kelly Cobb. Both recognised the potential for WiCID to reach our audience and provide information that is of use to them regardless of their looked after status.

### **Agreed Focus:**

- Revisiting the content and making it YP friendly. WiCID is finding that it is better to have snippets of information and then links to documents or videos such as You Tube, or similar videos relevant to the topic.
- The Reviewing Team Manager has sourced website links (Children's Commissioners Rights of the Child video, Children in Wales guidance documents etc) and WiCID has approached the Youth Forum to involve them. The Forums are beginning to reform having been quiet because of Covid .
- Kelly Cobb is also asking the Youth Engagement and Progression Officers to engage with some of the looked after children in schools and involve them in the development of the content
- It is encouraging that once this work has been completed, WiCID will be able to monitor the amount of traffic visiting the 2Sides Content

**The Orb:**

In terms of work to compliment or enhance the work that had already taken place with 2Sides, there has been no work undertaken on the Orb since March 2020 and with regard to the App being built for us by a care experienced software developer, this work is progressing. There was a consultation with young people and practitioners during Nov / Dec 2020 (facilitated by DCT).

**MUSE:**

RCT has commissioned a scoping exercise with MUSE Care to explore the development of a mobile phone app for looked after children. This exercise began in November and has so far involved interviews with a mixed cohort including children, social workers, fostering social workers and residential workers as well as IRO's. It is understood that lead person is due to present his feedback in the new year.

**CAFCASS:**

In the past the Reviewing Team has sought to develop a close, positive working relationship with the Children's Family Court Advisors, with the intention of improving information sharing during and at the end of care proceedings.

Unfortunately, management restructuring changes within CAFCASS meant that these plans stalled until recently.

**Adoption Review Documentation:**

In light of the recommendations of a Child Practice Review, Children's Services and the Reviewing Team were part of a task and finish group to produce an adoption review document that will be used by RCT, Merthyr, Cardiff and The Vale as well as VVC. This work was piloted in early 2020 with the expectation that it would be reviewed in May 2020. Unfortunately, the pandemic has meant that the pilot has not yet been reviewed as planned and so we have continued to use the new documentation which we consider to be an improvement.

**Developing a new CLA Review document:**

It was reported previously that the Reviewing Team had drafted a 3 part CLA review document which comprised the social worker's report, IRO's summary of the review discussion, and the Team Manager's response to the recommendations. The intention prior to the pandemic was for this to be piloted, but this has not been possible because of the impact the pandemic has had on practice. The decision has been made to delay the pilot whilst frontline teams manage the challenges of agile working during the pandemic.

**Life Journey Work:**

Following on from the Bright Spots Survey that was commissioned by the LA in 2018 the reviewing service contributed to development of life journey work for all children who become looked after. The pilot was successful and some of the life journey work that has been shared with IRO's has been of such a high quality. There are still issues to resolve, which includes how these large data files can be sent / shared given that they are too big to email, and how going forward, these "flipbooks" can be stored in shared spaces that can be accessed by key individuals. It is envisaged that the Office 365 might overcome issues such as these, but this is being explored further.

## **10. EQUALITY AND DIVERSITY IMPLICATIONS**

This is an information report therefore no Equality and Diversity Assessment is required.

## **11. CONSULTATION**

This is an information report therefore no consultation is required.

## **12. FINANCIAL IMPLICATION(S)**

None

## **13. LEGAL IMPLICATIONS OR LEGISLATION CONSIDERED**

This is covered in the Appendix document.

## **14. LINKS TO THE COUNCILS CORPORATE PLAN / OTHER CORPORATE PRIORITIES/ FUTURE GENERATIONS – SUSTAINABLE DEVELOPMENT**

The statutory responsibilities and good practice standards of the Reviewing Service compliment the Council's Corporate Priorities to promote independence and positive lives for everyone by ensuring:

- Rhondda Cynon Taf children and young people will receive a great start in life.
- Where children and young people are unable to live to live with their own parents, we put in place the care arrangements, including specialist accommodation, which will keep them safe and well. We will ensure that we listen to the voices of these children and young people by involving them in monitoring the action plan to address a child's journey through care from admission to exit.
