

Quarterly Engagement Report

October-December 2020

Climate goals, BHP, Vale, Standard Chartered, HSBC

CLIMATE EMERGENCY

It is the fifth anniversary of the Samarco dam collapse in Mariana, Brazil

LAPFF meets AngloAmerican and Glencore chairs on stakeholder engagement

Objective: Part of LAPFF's strategy to make progress on tailings dam safety has been to meet company chairs to explain the Forum's perspective on the importance of speaking meaningfully with affected communities. The Forum had managed to speak to the chairs of Vale and BHP but had yet to meet with the chairs of AngloAmerican and Glencore on this issue.

Achieved: Over the last quarter, LAPFF Chair, Cllr Doug McMurdo, spoke with both AngloAmerican Chair, Stuart Chambers, and Glencore Chair, Tony Hayward, on this issue. Both chairs recognised the importance of engaging effectively with affected communities but did not provide much detail on how their respective companies were going about this engagement.

"The more I discuss joint ventures with mining companies, the more concerned I become. These entities seem to mask significant governance failings that more often than not lead to significant ESG failings. We need to figure out a way forward on this issue."

Cllr Doug McMurdo

Cllr McMurdo noted that the Forum had held a webinar on 5 November to remember the fifth anniversary of the Samarco dam collapse in Mariana, Brazil and to highlight the fact that reparations thus far have been woefully inadequate. He also raised concerns about the role of joint ventures in contributing to poor environmental, social, and governance standards in mining projects. While there was general agreement that joint ventures were problematic, the different companies had different perspectives on these structures, which might account for the dissonance in running them.

As an added dimension to this work, Cllr McMurdo also met with a number of Brazilian investors, including Previ, the largest public pension fund in Brazil, to test their appetite for engaging with the

CLIMATE EMERGENCY

SAY ON CLIMATE

In December, LAPFF came out in support of the 'Say on Climate' initiative which aims to secure a 'say on climate' vote at a wide number of company AGMs. This followed a meeting with Sir Chris Hohn who earlier this year had been successful in securing an annual vote at the Spanish airport group Aena's AGM on its climate transition plan. Sir Chris runs the Children's Investment Fund Management which is associated with the Children's Investment Fund Foundation. The difference between this initiative and, for example, Climate Action 100+ is that it is not exclusive to

high carbon-emitting companies but can be applied to all listed companies. Recommended actions also include advocating for a mandatory 'say on climate' which would mean it would be on every company AGM ballot. Further information can be found at www.sayonclimate.org.

affected communities. LAPFF found in its Rio Tinto engagement on Juukan Gorge that engaging with both local communities and local investors in Australia helped to galvanise a unified voice and support for change. The Forum is looking to build a similar coalition amongst Brazilian communities and investors.

These engagements fit within the continuing collaborative efforts between investors through another Church of England-led initiative on engagement with Indigenous communities. Over 70 letters were sent to mining companies globally to request improved disclosure on stakeholder engagement and governance. The results are now being collected to determine next steps.

In Progress: The Forum has yet to meet with Rio Tinto on the Juukan Gorge incident, despite additional requests to this end. Rio Tinto has granted investors meetings on climate change and general governance at board level but continues to push back on human rights and stakeholder engagement discussions. Having heard from community representatives in both the US and Mongolia on Rio Tinto's conduct, it is becoming clear that there are systemic failings in the company's ESG assessment processes that LAPFF will want to discuss when a meeting is finally granted.

It is also increasingly clear that joint ventures need more investor attention. Apart from the fact that they facilitate governance gaps, it was apparent from this quarter's meetings that the investors involved do not have a common vision for their operation or how to address ESG issues through these structures. This must

change quickly for progress to be made.

The Glencore meeting also focused largely on the company's announcement that it would be exiting coal and giving a greater focus to base metals. It will be important to follow up with the company to see how its strategy is being implemented, especially as the company is forecasting an increase in coal production to 2025 and with a new CEO, Gary Nagle, who is currently Head of Coal Assets, taking over from Ivan Glasenberg in the first part of next year.

Financing a Just Transition Alliance

Cllr Rob Chapman, LAPFF vice chair, joined the first meeting of the Alliance which aims to translate financial sector commitments into real world impact. The Alliance aims to build on positive momentum to encourage tangible action and profile promising case studies. Co-ordinated by the London School of Economics, a report will be produced setting out recommendations in time for COP 26.

ArcelorMittal and National Grid CA100+ Engagements Continue

Objective: to seek evidence of progress in the period to 2030 against the companies' net zero targets and to encourage board consideration of putting climate transition plans to shareholders for approval.

Achieved: Cllr Chapman, LAPFF vice-chair, met with Aditya Mittal,

ArcelorMittal's Finance Director and

Bruno Lafont, the lead independent director, together with representatives from the other two lead Climate Action 100+ (CA100+) investors. It was a productive discussion with Aditya Mittal committing to look at providing appropriate hybrid arrangements for investors to participate in the annual meeting and for his presentation to the meeting to include detail on the zero-carbon transition with time being allowed for discussion on this. He also spoke about exploring partnerships with other companies to work towards using renewable power in manufacturing green steel. The company's progress in the use of hydrogen in steel-making to decarbonise the process, has been the issue raised most consistently in meetings with company representatives. In the 'Climate Action in Europe' report produced during the year, it was notable that this technology was separated out from the other 'smart carbon' technologies with the company announcing this quarter that they will produce the first steel using hydrogen from renewables

At National Grid, LAPFF has long

LAPFF HOLDS WEBINAR SERIES TO REPLACE THE ANNUAL CONFERENCE

Presentations at the webinars included an overview from David Enrich, New York Times business investigations editor of his new book Dark Towers. Also expert speakers presented on the Opioid Crisis, Managing climate change in a pension fund portfolio, Just Transition, Financial Reporting on climate, an update from the communities affected by the Tailing Dam disasters, the COVID crisis and workers and Workforce Engagement.

The Chair and Vice Chair also presented the LAPFF 2020 Annual report to the membership and detailed engagements undertaken on behalf of LAPFF

COMPANY ENGAGEMENT

been pushing for group-wide net zero targets to be set. Although the company has been signed up to the science-based target initiative for some time, no scope 3 targets for the group had been set. At an ESG investor event, the company announced that it has set an interim target of 20% reduction in scope 3 emissions by 2030. LAPFF asked the chair if he would consider putting the net zero transition plan to vote at the next AGM. The answer was not in the affirmative, but will be something to pursue with Paula Rasput Reynolds who will replace Sir Peter Gershon as chair in 2021. After this event, Cllr Chapman met with Sir Peter and followed up on the possibility of the board putting a climate transition plan to shareholders at the AGM. In Progress: Discussions continued with both ArcelorMittal and National Grid on the CA100+ benchmarking process. Some of the issues raised will be addressed in ArcelorMittal's second group climate report which seems likely to be issued in January 2021. Discussions with National Grid referred to the company's proposed Responsible Business Review to be published annually and how elements of the CA100+ benchmarking process might map into this and investors' ability to measure progress towards net zero.

LAPFF Approaches HSBC to Discuss Upcoming Climate Resolution

Objective: As was the case with the Barclays resolution this year, ShareAction has again approached LAPFF about co-filing a shareholder resolution with a UK bank. This time, HSBC is the target. The resolution calls on HSBC to 'reduce financed emissions from [its] portfolio of customers to net zero by 2050 or sooner. The Company should report on progress against its targets and strategy in its annual report on an annual basis, starting from 2021 onwards, including a summary of the framework, methodology, timescales and core assumptions used.' Achieved: LAPFF's policy is to engage with companies prior to taking a view on whether or not to support a resolution, so a meeting with HSBC was requested in December to discuss the issue. In Progress: This meeting will be pursued again in the new year.

LAPFF Engages Standard Chartered on Climate Finance

Objectives: LAPFF met with Standard Chartered to seek evidence of progress in the period to 2030 against the company's net zero targets and request the 2021 AGM be opened up to virtual attendance Achieved: A virtual 'ESG' meeting provided access to the chairs of all board committees as well as the chair, José Viñals. Mr Viñals was responsive to both LAPFF questions. On progress to 2030, Standard Chartered has committed to net-zero emissions across its global properties by 2030 by sourcing energy from renewable sources and pursuing energy efficiency measures. For scope 3, he explained how the company is working with clients to measure, monitor and reduce emissions in order to ensure alignment of the portfolio with Paris goals. There are clear standards for non-compliance set but the bank has also committed to providing funding, with significant amounts for renewables and clean-tech projects over the next five years. In Progress: In response to the question

In Progress: In response to the question about running a 'hybrid' AGM, by allowing virtual attendance, Mr Viñals noted that the 2020 AGM had prepared for this by asking for a change in the articles of association. The board is reflecting on how this would work, including reflecting on the virtual ESG meeting itself and would 'try to do something that makes sense'.

LAPFF engages auto industry on climate

Objective: During 2020, LAPFF called on the UK government to ban sales of all new petrol, diesel and hybrid cars by 2025. Since then, the Government has confirmed that it will ban the sale of all new petrol and diesel cars by 2030, representing a significant 'real world' outcome in terms of carbon reduction impact. LAPFF has sought to engage with the auto industry to ascertain how car makers will be approaching the challenges of electrifying their fleets and what their plans are to reduce carbon emissions.

Achieved: So far, LAPFF has written to six vehicle manufacturers regarding these issues, and the Forum recently met with BMW. BMW has openly set science based targets for its Scope 1 & 2 emissions but has yet to set such targets for Scope 3 emissions. The company assured LAPFF that it is ready to meet a rise in demand for electric vehicles and that its own operations will be carbon neutral by next year by offsetting its carbon emissions in a number of ways. They have also ensured that all of their battery cell suppliers use green energy and are looking at all aspects of supply to reduce CO2 emissions.

In Progress: LAPFF has meetings organised for early 2020 with two other vehicle manufacturers to discuss these issues. LAPFF hopes to get manufacturers that haven't already, to set science based targets for their scope 3 emissions and also wants to ensure that these companies are set up sufficiently to deal with the electrification of their fleets.

COMPANY ENGAGEMENT

Protesters demonstrate outside the Grosvenor House Hotel whilst arms dealers, MPS, and military personnel hold a black tie dinner.

LAPFF Attends BAE Briefing

Objective: About a year and a half ago, the Forum began an engagement with widely held defence contractors to discuss their arms policies given the use of their weapons for the war in Yemen. One of the companies engaged was BAE. The company had intended to hold an investor meeting just as the Covid pandemic broke, so decided to hold a webinar later in the year in lieu of a physical meeting. Cllr McMurdo attended to see if there were any updates on the initial meeting from August 2019.

Achieved: When Cllr McMurdo met with BAE, he raised the question of engagement with human rights. However, the company appears to continue to focus on staff issues as its primary indicator of performance on the 'S' element of ESG. While it is understandable that the company is in a difficult position with government arms contracts, it is worrying that it appears to barely acknowledge the human rights implications of its arms contracts.

In Progress: In the first instance, it seems that raising awareness within the industry of investor concerns about human rights is necessary. Perhaps further progress can be made once this has been done. Post-Covid, the Forum will also explore whether it might be fruitful to engage with government on this issue.

Israeli-Palestinian engagements underway

Objective: A number of LAPFF funds

in the Israeli-Palestinian territories.

were approached by both pro-Israeli and

pro-Palestinian groups about investments

Consequently, the Forum cross-referenced the companies of concern with a UN list of companies raising concerns based on their operations in this area to determine a preliminary list of companies with which to engage on this issue. Achieved: The first engagements have taken place with three of the seventeen companies approached on this issue. So far, there has been pushback on two fronts from all three companies. Motorola, which the Forum has approached in the past, merely provided its standard annual report text in response to a meeting request and has not yet granted a meeting of any sort. Altice, a French telecommunications company, and Israeli Discount Bank have both pushed back on LAPFF's request for human rights impact assessments in respect of their operations in the territories on the grounds that the UN list is political and it would do no good to undertake these assessments because existing legal requirements ensure human rights compliance in any case. Altice did engage through a meeting, though, while Israeli Discount Bank

submitted only a written response. In progress: Forum members continue to be approached on this seemingly intransigent issue, and LAPFF will continue to engage with the companies approached. Although the Forum is not likely to solve this political problem, it is hoped that the companies engaged will come to understand the importance of conducting human rights impact assessments both for their own operations and in order to provide more helpful investment information to shareholders.

LAPFF IOPA Engagement Continues

Objective: LAPFF originally joined the Investors for Opioid and Pharmaceutical Accountability (IOPA) to combat the opioid epidemic in the US. However, since the Covid pandemic arose, the investor coalition has also engaged with pharmaceutical companies on their approaches to Covid vaccines.

Achieved: IOPA's Meredith Miller spoke at the LAPFF webinar series in early December and noted the dire situation on opioids in the US. Forum representatives also regularly attend IOPA meetings and have flagged shareholder resolutions stemming from the DEPA meetings.

In Progress: LAPFF will continue to notify members of co-filing opportunities as they arise.

COMPANY ENGAGEMENT

CONSULTATION RESPONSES

A letter on climate change was sent to the International Energy Authority (IEA) expressing LAPFF's concerns about carbon capture and storage (CCS). The letter points out the unproven record and technical lack of viability of CCS, coupled with the drastically reduced price of renewables in the last couple of years in questioning the IEA's position in support of CCS.

The CCS issue is of growing concern as company reporting in many of the hard-to-abate sectors appears to promote the technology and a meeting in December with the Global CCS Institute (GCCSI) revealed the extent of unsubstantiated and misleading material being shared with investors.

NETWORKS AND EVENTS

LAPFF Webinars

In addition to these end of year webinars, the Forum also held webinars with community members affected by mine operations in the US, Brazil, and Mongolia.

Once the world's fourth largest lake, the Aral has shrunk so much that it has now split into two separate bodies of water. [The United Nations Development Programme (UNDP) has been running an Aral Sea Programme since 1995, focusing mainly on water resources management, small business development, humanitarian assistance and a social and health programme as the ecological disaster of the dying sea has brought

VALUING WATER TASK FORCE

As a founding member of the Valuing Water Task Force, LAPFF attended the second task force meeting at the end of November. The purpose of the meeting was to provide feedback on the global impact assessment currently being undertaken by a team at the University of Saskatchewan. Task Force members discussed the importance of highlighting the link between water resources and climate change as well as the need for a solution-orientated approach. Members also discussed how best to encourage asset allocation to the future of water security. Part of the allocation discussion focussed on the potential scope and methods for harmonizing water risks and financial materiality. Ultimately, the methodologies of both the cost of inaction and the shadow price on water were identified as a potentially meaningful way of undertaking financial materiality assessments.

LGIM Stakeholder Webinar

A Forum representative also attended Legal and General Investment Management's annual stakeholder forum, held this year via video conference. The idea behind the event is to highlight upcoming issues for LGIM to consider in its voting and investing activities. This year, topics covered included antimicrobial resistance, climate, and human capital management.

CHRB and Covid Webinars

Forum representatives also attended a number of human rights-related webinars, including one on the impact of Covid on human rights and the launch of this year's Corporate Human Rights Benchmark (CHRB). This year's

benchmark covers the auto industry for the first time with auto companies performing very poorly.

IIGCC Weekly Meetings

LAPFF continues to be represented in weekly meetings co-ordinated by IIGCC around the shareholder resolution filing process for CA100+. Information sharing at this group helps in engagements with chairs and joint-CA100+ leads on putting net zero transition plans to shareholders. A meeting was also held with JustShare, a south African NGO, who has had a proposed shareholder resolution on climate refused by the energy and chemicals company Sasol, despite other listed South African companies having tabled similar resolutions over the previous 15 years.

COMPANY PROGRESS REPORT

145 companies engaged over the quarter during 172 engagements
