5.0 SUMMARY

- 5.1 The Budget Monitoring position will be dependent upon the final 2021/22 position and any further capital expenditure to be incurred to the year-end 31st March 2022.
- 5.2 The Draft Revenue Estimates 2022/23 propose an operating surplus of £498,410. With anticipated investment income of £3,500.
- 5.3 It was agreed at the Joint Committee meeting of 10th December 2019 that there would be an £350,000 Annual Redistribution of the General Reserve to the respective Authorities.
- 5.4 The net contribution to reserves in 2022/23 is estimated at £151,910.
- 5.5 Based on the 2021/22 Budget Monitoring Report and the Draft Revenue Estimates 2022/23 the estimated General Reserve Balance at the end of 2022/23 would be **£1,574,853**. Although at this stage this does not take into account any capital works that may be identified to be undertaken during 2022/23.
- 5.6 The General Reserves are required to fund further capital expenditure as part of the ongoing delivery of the service and the projected position is considered to be at a prudent level as at 31st March 2022.
- 5.7 The level of General Reserve will be monitored closely as part of the robust budget monitoring arrangements in place and updates will be reported to the Joint Committee at appropriate intervals during 2022/23.
