Audit Wales – <u>Use of Performance Information: Service User Perspective and Outcomes</u>

Publicly available September 2023 - reported to Governance and Audit Committee 24 January 2024

What are we trying to achieve, the outcome	Clear, robust and timely information that gives assurance to elected Members and residents that we are delivering what we set out to achieve and putting residents at the centre of what we do.
Why we need to do it:	The Council collects and uses a raft of information from across its services and a range of platforms to evidence and compare performance and to hold services to account. Part of the suite of information is resident feedback. The Council has a good track record of engaging with communities to inform decisions. However, in recent years we have not routinely sought the information that has enable the Council to test whether its work is making the difference it intended. Whilst the Corporate Plan was clear about the intended outcomes in the priorities set in 2020, the focus on response to floods and the pandemic has impacted the business processes that would normally provide a range of evidence in respect of Service User Perspective and Outcomes.

	to services and policies) and specific service user information within self-standing reports. As part of the Council's on-going review of its approach, where new developments will further support this area (e.g. the new Customer Relationship Management system that will enhance the availability of service user information; the development of 'you said, we did'; and new / revised outcome measures), these will be incorporated into existing arrangements.	 strengthen arrangements that will demonstrate the difference the Council's work is making. This is an on-going programme of work and includes: Using the Council's new Customer Relationship Management System to enhance the availability of service user feedback e.g through the development 	March 2024 (and on- going)	Lead Officers for new Corporate Plan

		 service delivery, for example, introducing Adult swimming lessons in our leisure facilities at Tonyrefail Leisure Centre (press release). Services considering more outcome focussed measures / information as part of the development of the Council's new Corporate Plan. 		
R2 Outcomes information: The council should strengthen the information provided to senior leaders to help them evaluate whether the council is delivering its objectives and the intended outcomes.	As part of developing the 2023/24 Corporate Plan priority action plans for People, Places and Prosperity, work has focussed on setting more clear outcomes, a suite of underpinning performance measures (noting that the suite of measures are subject to ongoing review) and key actions to support the delivery of intended outcomes. With regard to key actions, these include a focus on evaluating the impact of outcomes in specific areas, with updates to be reported to senior leaders. As part of the	demonstrating the impact of the Council's work through more clearer outcomes in quarterly performance reports alongside supporting actions and measures. In parallel, case studies are being used to provide evidence of impact, for example, the work of the new Diversionary Activity Team to provide support to those at risk of or who are homeless in our communities and a client engaged in support and recreational activities to reduce loneliness and improve their wellbeing (case study). As the 2020-24 Corporate Plan comes to an end, as reflected in the Annual Self-	Original timescale of March 2024 has been revised as per below.
